## **Kallistratos Dionelis will be presenting the following at the conference:**

**Secure Truck Parking** - A shared responsibility of all public and private stakeholders

### **Facts & figures on truck parking**

#### **The challenges of secure truck parking**

- a reliable and efficient data system
- providing information – liability issues
- common standards of security levels in Europe,
- going beyond the "state consideration" towards the definition of an EU network,

#### **Improving parking in future**

- stakeholders to be identified:
  - \* public/private
  - \* "producers" of security at a cost that can be afforded by the "consumers"
- actions to be defined,
- policies to be decided
- coordinating structures to be built
- independent monitoring to be safeguarded
